ECO-BAGS PRODUCTS UTILIZES **B2BGATEWAY** TO AUTOMATE THE CLEAN FLOW-THROUGH OF BUSINESS PROCESSES

About Eco-Bags Products

Eco-Bags Products' mission is to offer thoughtful, ethically and sustainably sourced, durable-reusable bags that inspire people to reduce, reuse, recycle and re-imagine the world we live in. They believe that less can be more. They are passionate about living greener, simpler and more abundant lives.

Their business choices are driven by two age-old sayings... "Leave no trace," and "Do no harm." Their guiding philosophy is their belief that everyone can make their own best effort to live lightly on the earth and live more gently with each other. They believe they can be agents of this change; that they can continue to influence culture by responsibly making goods that invite conversation and inspire the change they want to see in the world.

About B2BGateway

B2BGateway offers Fully Managed EDI & API Connectivity solutions that are 100% built and maintained by B2BGateway developers. B2BGateway's solutions facilitate the seamless exchange of any business documents such as purchase orders, invoices, inventory updates, and advanced shipping notices. B2BGateway supports any communication method (FTP, AS2, HTTP, etc) and any file type (X12, XML, EDIFACT, CSV, etc). B2BGateway's solutions are simple to use, competitively priced, and eliminate the need for manual data entry errors that result in costly chargebacks.

In addition to our global headquarters in Rhode Island, B2BGateway has offices in Ireland and Australia enabling us to offer unparalleled support across all time zones.

BUSINESS CHALLENGE

Eco-Bags Products couldn't easily transmit data to their warehouse causing their business to operate inefficiently and slowing down their supply chain process.

SOLUTION

B2BGateway and Eco-Bags Products worked together to successfully implement an integration that allowed Eco-Bags Products to send their data to their warehouse automatically and in real time.

"When you find the right partners, they help you to create efficiencies that allow your business to scale".

**SHARON ROWE,
 ECO-BAGS PRODUCTS**

RESULTS

B2BGateway automated Eco-Bags Products' ability to send information to their warehouse, which allows them to run more efficiently and shorten their order fulfillment cycle.

Eco-Bags Products is a "tiny" business...
 A new book by our founder, Sharon Rowe,
 about how to make an impact **and** have a rich life.
