BUSINESS CHALLENGE

A few years ago, Tile had to manage a lot of manual data entry processes with just a small team in place to tackle them.

SOLUTION

Tile was able to optimize B2BGateway's EDI integration solution for NetSuite to eliminate manual data entry processes and streamline efficiency.

RESULTS

The experience and the advice from the staff at B2BGateway has allowed Tile to onboard large retailers and also helped them understand the many requirements needed from each Trading Partner.
