

B2BGateway Announces Cloud-Based, Fully Integrated EDI Solutions For Exact Online Users.

Boston, MA, October 20, 2015 - B2BGateway, a leading global EDI solution provider today announced that it has developed a cloud-based, fully integrated EDI solution for users of Exact Online business software.

EDI has become best business practice in the transfer of electronic business documents such as Purchase Orders, Invoices, Shipping Notices, Inventory Updates, Acknowledgements, etc., between trading partners and is highly popular in market verticals such as Wholesale Distribution, Retail, Manufacturing, Healthcare, Automotive and Finance.

Using B2BGateway's cloud-based EDI software allows Exact Online users to trade all 318+ recognized EDI documents with their trading partners. Having the EDI function run by B2BGateway also means that the Exact Online user is able to trade in all recognized international EDI standards and communication protocols such as ANSI X12, EDIFACT, Tradacoms, PEPOL, XML, VAN, FTPs, AS2, etc..

By fully integrating the solution through cloud-based technology, B2BGateway is able to remove the need for the Exact Online user to re-key data. This leads to greater accuracy, increased labor efficiencies and it expedites the order-to-payment cycle with their trading partners. B2BGateway is also an Intuit QuickBooks Gold Developer and can also offer fully integrated EDI solutions to QuickBooks Online users who purchase the Exact Online application.

Roger Leyden, Director of Global Business Development at B2BGateway states "Being an Intuit QuickBooks Gold Developer since 2003 with the highest customer satisfaction rating on the Intuit Marketplace, it was a natural progression for B2BGateway to develop an EDI solution for Exact Online business software, once the QuickBooks Online and Exact Online collaboration program was announced. We look forward to providing the same award winning EDI solutions and great customer care to Exact Online users that we have been providing consistently to QuickBooks Online users over the past number of years."

About B2BGateway: B2BGateway is a leading global EDI (Electronic Data Interchange) solutions provider with offices in North America, Europe, Australia and China. B2BGateway is a GS1 Accredited solution provider and offers 24/7 customer support to all clients. B2BGateway EDI solutions are simple to use, competitively priced, highly effective and can increase profitability by reducing costs associated with manual data entry.
